The book is divided into three sections: Animal Welfare, Exhibit Design, and Management. The first section provides an overview of the current state of animal welfare in zoos and aquariums, and discusses the challenges and opportunities for improving the lives of animals in captivity. The second section explores the latest trends in exhibit design, and provides practical advice on how to create exhibits that are both naturalistic

and enriching for animals. The third section covers the management of zoos and aquariums, and discusses the importance of collaboration, communication, and education in ensuring the long-term success of these institutions.

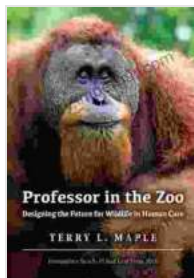

Designing the Future for Wildlife in Human Care is a valuable resource for anyone who works with animals in captivity. The book provides a wealth of information on the latest research and best practices in zoo and aquarium management, and is a must-read for anyone who wants to help create a better future for wildlife in human care.

About the Authors

The editors of Designing the Future for Wildlife in Human Care are Dr. David Shepherdson, Dr. Jill Mellen, and Dr. Ulysses Seal. Dr. Shepherdson is the Director of the Smithsonian's National Zoo, Dr. Mellen is the Director of the Animal Welfare Institute, and Dr. Seal is the Director of the Wildlife Conservation Society's Bronx Zoo. The authors have a combined experience of over 100 years in the field of wildlife conservation, and their expertise is evident in the quality of this book.

Designing the Future for Wildlife in Human Care is a landmark publication that will help to shape the future of zoos and aquariums. The book provides a wealth of information on the latest research and best practices in zoo and aquarium management, and is a must-read for anyone who wants to help create a better future for wildlife in human care.
