Print length : 324 pages

The International Phonetic Alphabet (IPA) is the world's most widely used system for transcribing spoken language. It is used by linguists, phoneticians, speech therapists, and language teachers to represent the sounds of all the world's languages in a consistent and accurate way.

The *Handbook of the International Phonetic Association* is the definitive guide to the IPA. It provides a comprehensive overview of the IPA, including its history, development, and use. The *Handbook* also includes a detailed description of each IPA symbol, with examples of its use in different languages.

The *Handbook* is an essential resource for anyone who works with spoken language. It is a valuable tool for linguists, phoneticians, speech therapists, and language teachers. The *Handbook* is also a great resource for students of linguistics, phonetics, and other related fields.

What's inside the Handbook?

The *Handbook* is divided into three parts.

1. Part 1:

Part 1 provides an overview of the IPA, including its history, development, and use. It also includes a discussion of the principles of phonetic transcription.

2. Part 2: The IPA symbols

Part 2 provides a detailed description of each IPA symbol, with examples of its use in different languages. The symbols are organized by phonetic class, such as vowels, consonants, and suprasegmentals.

3. Part 3: Applications of the IPA

Part 3 discusses the applications of the IPA in a variety of fields, such as linguistics, phonetics, speech therapy, and language teaching. It also includes a discussion of the future of the IPA.

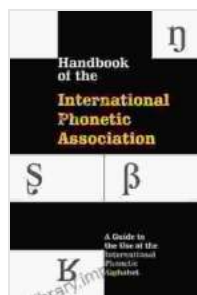

Who should read the Handbook?

The *Handbook* is an essential resource for anyone who works with spoken language. It is a valuable tool for linguists, phoneticians, speech therapists, and language teachers. The *Handbook* is also a great resource for students of linguistics, phonetics, and other related fields.

How to get the Handbook

The *Handbook* is available in print and electronic formats. You can Free Download the *Handbook* from the International Phonetic Association website.
