In the new book *Maimonides and Spinoza Come to Dinner*, author Yossi Schwartz takes us on a fascinating journey to the dinner table of these two legendary philosophers. Over the course of an evening, they discuss some of the most profound questions of life, including:

- The nature of God
- The human soul
- The meaning of life

- Ethics
- Politics

As they dine on a sumptuous meal, Maimonides and Spinoza share their unique perspectives on these timeless topics. Maimonides, the great Jewish philosopher and physician, argues for the existence of a personal God who created the world and revealed his laws to humanity. Spinoza, the Dutch philosopher of Jewish descent, argues that God is not a personal being but rather an impersonal substance that is identical with nature.

Despite their different views on God, Maimonides and Spinoza find common ground on many other issues. They both believe that human beings are rational creatures who are capable of achieving great things. They also believe that it is important to live a virtuous life and to contribute to the well-being of society.

The dinner party between Maimonides and Spinoza is a fascinating and thought-provoking event. It is an opportunity to hear two of the greatest minds in history discuss some of the most important questions of life. It is also a reminder that even people with very different beliefs can find common ground and enjoy each other's company.
