

Veterinary Clinics of North America: Disorders of the Oral Cavity

This issue of Veterinary Clinics of North America focuses on Disorders of the Oral Cavity. Guest editor Dr. R. Michael Thomas has assembled an expert team of authors to provide comprehensive coverage of this important topic. The issue begins with an overview of the oral examination and diagnosis, followed by in-depth discussions of specific oral diseases and conditions. These include periodontal disease, gingivitis, stomatitis, oral neoplasia, temporomandibular joint disease, malocclusions, trauma to the oral cavity, and dental extractions.

Disorders of the Oral Cavity, An Issue of Veterinary Clinics of North America: Exotic Animal Practice (The Clinics: Veterinary Medicine Book 19)
